DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/27/07 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8, 11-18 and 21-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 8 and 18 are vague and indefinite in that in the "if necessary" clause the amount of mimosine or 3,4 dihydroxypyridine is not delineated with any particularity. Thus the antecedent basis for the amounts in the dependent claims is similarly unclear. Amendment to add "at a concentration of from 0.001 mM to 50 mM" in claims 8 and 18 would be remedial.

Claims 21-23 are confusing in the recitation "wherein mimosine or 3,4 dihydroxypyridine is present in said natural aquatic sample". In claim 18, this material is **added** to the natural aquatic sample. For proper antecedent basis, "present" should be replaced by "added".

No claim is allowed.
